

MEDICAL CANNABIS
RESEARCH AUSTRALIA

MEDICAL CANNABIS FOR PATIENTS AND CARERS

Medicinal cannabis was legalised in Australia in November 2016. There is good clinical evidence that it may be of benefit in Chronic Pain, MS, intractable Epilepsy, and Nausea in Cancer Related Chemotherapy.

Come and learn how your medical condition may be treated by medicinal cannabis.

SPEAKERS INCLUDE:

Pharmacists | Prescribers | Researchers
Health Professionals | Patient Advocates

Monday 11 September Melbourne, VIC | Tuesday 12 September Sydney, NSW
Wednesday 13 September Brisbane, QLD | Thursday 14 September Perth, WA
